

INDUSTRIAL NORTH DESIGN
LIMITED EDITIONS

Industrial North Design is a young British studio specialising in strictly limited edition products. Our luxury collection is influenced by elegant natural structures contrasted with the heritage of our native northern England, home of the industrial revolution. We stay faithful to our ancestors by using precision industrial manufacturing processes, artisan engineers and cutting edge technologies.

Industrial North Design is a working industrial design studio. We undertake bespoke projects as well as adding new interesting designs to our collection. Our luxury automotive background and experience means that we are brilliant at understanding luxury products and bringing them to market.

The Britannic

Britannic limited ed. of 15

Price £2,600.00

The striking Fibonacci spiral is etched into the face of this limited edition automatic timepiece.

The design has a striking bold look designed around modern precision engineering processes. The 316L stainless steel body is constructed using 10BA thread screws, a gentle acknowledgement of the obsolete 'British association' imperial engineering threads.

The Britannic

The Britannic

The Vanguard

Vanguard limited ed. of 15
Price £2,600.00

This automatic timepiece bears the inscription 'COME INTO THE FACTORIES', a British ministry of information slogan from the 1940's.

Bold industrial influences taken from Britain's great engineering heritage and achieved through CNC wire erosion and Photochemical etching. These painstaking manufacturing methods allow a dimensional accuracy of 0.002mm.
